WROE'S APPOINTMENT.

Sheriff Rhodes Says He Is Responsible For It And No One Else.

(HARDINSBURG, KY., Oct. 20, 1893.—) BY WAY OF explanation I would like to say a few words about the appointment of Thos. T. Wroe as deputy sheriff in the Cloverport District. I have recently understood that Wroe's appointment has been charged to Gen. A. J. Gross. That Gen. Gross made the appointment. Now in all candor to the citizens of the Cloverport District and in justice to Gen. Gross and in fairness to myself and all who may be concerned I wish to make this statement, I on three different occasions visited the city of Cloverport to look after the interest of the sheriff's office, and to find out what were the wishes of the people of the district in regard to who they desired to do their business as deputy sheriff. After separately asking the people to select a man of their choice and recommending him to me and I would appoint him.

The answer to my suggestion was nearly universal that I was the man to make the appointment, and they would be satisfied with it. I did ask Gen. Gross as to making the appointment, just as I had asked many of the citizens, and Gen. Gross gave me this answer after having asked me who I wanted the deputy sheriff to be. "That they were all good and each of them was his friend, that he would be satisfied with either of them and that I was sheriff of the county and to make the appointment."

Now as sheriff of Breckenridge county I made the appointment of Thos. Wroe. I am responsible for the appointment of Mr. Wroe and it is with all due respect to the other appointing that I make this statement. I believed at the time I made the appointment that either of the other gentlemen were well qualified to make a good sheriff and would do all high toned gentlemen, but I could only appoint one and I hope the citizens of the Cloverport District will give me a fair consideration as I have endeavored to give them.

Respectfully,
F. K. Rhodes, R. B. C.

CANDIDATES FOR THE STATE SENATE AND COUNTY OFFICES SPEAK AT GLENDEANE.

A Small Crowd in Attendance And Little Enthusiasm.

The candidates for the State Senate and the county office spoke at Glendene last Friday to a small crowd. The county candidates hadn't much to say more than to announce themselves and tell a few jokes on each other. The Senatorial speakers, Blinn, Gross and Lennin discussed the tariff, state politics and touched each other up on their records.

It was all said in a pleasant way and nothing was broached of a personal or sectional nature. Mr. Lennin the People's party candidate seems to have it in for both the old parties and more especially the Republican party with which he is affiliated for more than twenty-five years. He said again and again that he was going to do something to get his eyes opened, and began to examine into the workings of that party to find it to be one of the most abominable and corrupt organizations in the world. He doesn't mind his words in dealing with the G. O. P. It was the first meeting of those gentlemen and neither of them knew what the other was going to say or where they would land. The fur will fly tho' before they make many speeches and some lively times may be expected. They ought to do something to stir up things for there is less interest manifested among the people than we ever saw in an election before. Democrats everywhere should wake up and get the vote out or something will drop that they won't like to hear when the election comes off.

The Democratic ticket is all right if every democrat does his duty and goes to the polls. There is no doubt that there is a lack of enthusiasm and interest especially among Democrats.
